THE INNOVATION LEADER
OF ANIMAL MEDICINE

WEIERLI GROUP

维尔利集团

Address: 16-B, Lecheng Business Center ,
NO.260 Huai'an Road , Shijiazhuang , Hebei, China.

Postcode: 050020

TEL : 0086-0311-89265710

FAX: 0086-0311-68052865

Email: info@victorypharm.com

Website: www.victorypharm.com

维尔利集团始建于2001年是集兽药研发、生产、销售、技术服务、国际贸易于一体的科技型集团
Weierli Group was founded in 2001, it is a science and technology group combined veterinary medicine research and development, production, sales, technical services, international trade in one group.
荣获国家级高新技术企业荣誉，获得国家专项研发资金数百万，在国家专项资金扶持下
We have won the national high-tech enterprises Honor, Won millions of national research and development funds. With the support of the national special funds

Product for poultry About us

维尔利集团研究院正式成立开启了科技创新的新纪元.

Weierli Group has formally established a research Institution that opens a new era of scientific and technological innovation!

研究院聚集行业众多硕博学位的专业科研人才

Institution gathered a great many professional talented re-searchers with master's or doctor's degrees

和一支庞大的权威专家顾问团

and a large group of expert advisory authority

分别与美国圣迭戈大学生命科学院

Joint and aligned with San Diego University of Life Sciences school

韩国首尔大学生命科学院

Seoul National University of Life Sciences school

中国农业大学、南京农业大学、

China Agricultural University, Nanjing Agricultural University,

东北农业大学、河北农业大学、

Northeast Agricultural University, Hebei Agricultural University,

西南大学、江西中医药大学等院校建立校企联合

Southwest University, Jiangxi University of Traditional Chinese Medicine and other colleges, enterprises and institutions separately.

先后成功开发了新兽药10余个

We have successfully developed more than 10 types of new veterinary drugs,

多个产品获得国家专利

A great number of products have obtained national patents.

集团公司下辖四家实体企业

Group administered four entities

一家商贸公司及一个事业部

One trading company and one business department

形成一个集团六驾马车并驾齐驱

Formed a group to keep pace with six carriages

产业涉及兽药、原料、饲料、

Industries involved in veterinary medicine, raw materials, feed,

塑料包装、养生保健等领域，

Plastic packaging, and health care fields,

形成多品类、多品牌齐头并进

Multi-category, multi-brand moving forward together.

线上线下、国际国内兼容并蓄的发展态势

Online and offline, international and domestic inclusive development trend

为提升集团的品牌核心竞争力

To enhance the Group's brand core competitiveness

维尔利集团以药品质量为生命

Weierli Group consider the drug quality as life

坚持“质量控制从源头抓起”的生产理念

Remain committed to the production concept of "quality control start from the source,"

严格控制原料检验到成品生产的每一个环节

Strictly control each step from raw material testing to finished products

加强培训 定期考核

Strengthened training and regulated assessment

让GMP成为每一个员工的最低标准

We let GMP become the minimum standard for each employee

结合现代化制药工艺和数字化控制技术

Combined with modern pharmaceutical technology and digital control technology

从而实现了产品的安全性、有效性、稳定性

In order to achieve the product's safety, effectiveness, and stability

优势产品已打入欧洲、美洲、亚洲、非洲市场

Our advantageous products have already entered into Europe, America, Asia, Africa market

兽药、塑包市场占有率稳居国内前五名

Veterinary medicine, plastic bag is stably ranking top five in domestic market share

全国拥有优质经销商千余家

We have more than one thousand high-quality dealers all over the country

规模养殖户数万家

and we have thousands of large scale farming households

先后与国内百余家知名企业建立了长期战略合作关系

We have established long-term strategic partnership with hundreds of well-known domestic enterprises.

LAYER BIOMIX

Composition(per 1g)

Viable bacteria(Enterococcus faecalis, Bacillus subtilis, Lactobacillus acidophilus) $\geq 1 \times 10^9$ cfu

Efficacy

Improve egg quality/Increase feed conversion/Modulate gut microbiota/Enhances resistance to diseases/Increases tolerance towards stresses

Dosage

1kg/ton of feed.

Package

1Kg/bag * 15 bags/carton
or as your requirements

VICBINZY POWDER

Composition(per 1g)

Clostridium butyricum $\geq 5.0 \times 10^7$ cfu

Bacillus subtilis $\geq 1.0 \times 10^9$ cfu

Lactobacillus delbrueckii subsp $\geq 1.0 \times 10^9$ cfu

Efficacy

Improve metabolism and activation/Improve immunity/Improve feed efficiency/Decrease the offensive odor and harmful gas

Dosage

0~3 days: 1kg/ 500kg of feed for 7-10 days.

Others: 1kg/1 ton of feed.

Package

1Kg, 5kg

BROILER BIOMIX

Composition(per 1g)

Viable bacteria(Enterococcus faecalis, Bacillus subtilis, Lactobacillus acidophilus) $\geq 1 \times 10^9$ cfu

Efficacy

Improve growth performance/ Improve carcass quality/Modulate gut microbiota/Enhance resistance to diseases.

Dosage

1g/2L of drinking water.

Package

1Kg/bag * 15 bags/carton
or as per your requirements

BDELLOVBRIO PLUS

Composition(per 1g)

Viable bacteria (Bdellovbrio Bacteriovorus, Clostridium Butyricum) $\geq 6.0 \times 10^7$ cfu

Efficacy

Anti-diarrhea/Enhance-Immunity

Kill pathogenic bacterium/Improve function of digestive organ and intestine

Dosage

500mL/500L of drinking water, for 5-7 days

Package

500mL/bottle, 30 bottles/carton

EGG BOOSTER

Composition

Phytase, Bacillus subtilis, Prebiotics, Multi-vitamins, Peptides streptozotocin, Immunocopentent peptide(ICP)

Efficacy

Improve eggshell quality/Promote the absorption of nutrition/improve feed intake/Improve the digestibility of phosphorus.

Dosage

1kg/1 ton of feed, for 5-10 days a course.

It shows better effect by longtime usage.

Package

1Kg/bag * 15 bags/carton

or as per your requirements

BROILER GROWTH BOOSTER

Composition

Growth factor peptide(GHRP-2), Vitamins.

Efficacy

Promote rapid weight gain and reduce mortality/Improve geed efficacy productivity and the quality of meat

Dosage

Mix feed: 400g mix 1ton feed

Mix water: 100g mix 500L water

Begin use on 20th days age till slaughter

Package

1Kg/bag * 15 bags/carton

or as per your requirements

GOLDEN MULTIVITAMINS

Composition(per Kg)

Vitamin A.....	1,500,000IU
Vitamin D3.....	150,000IU
Vitamin E.....	1,500mg
Vitamin K3.....	300mg
Vitamin B1.....	300mg
Vitamin B2.....	300mg
Vitamin B6.....	500mg
D-Calcium Pantothenate.....	1,000mg
Folic Acid.....	300mg
Biotin.....	10mg
Lysine.....	700mg
Nicotinic Acid.....	500mg

Efficacy

Prevent vitamin deficiency;
Enhance the body resistance to diseases;
Prevent and rescue stress reactions.

Dosage

100g/40L of drinking water once a day.

Package

100g, 500g, 1kg, 25kg

SUPER VC-25

Composition (per 1g)

Vitamin C(Ascorbic acid) 250mg

Efficacy

Adjuvant treatment of IB, ILT, Influenza, atypical ND and various respiratory disease or bleeding symptoms.

Strengthen resistance, improve metabolism

Enhance the detoxification effect.

Dosage

500g/2000L of drinking water

Package

1kg per bag*24bags per carton

VITAMINS B COMPLEX ORAL

Composition (per 1mL)

Vitamin B110mg	Vitamin B2.....12mg	Vitamin B5.....22mg
Vitamin B6.....8mg	Vitamin B8.....10mg	Vitamin B9.....10mg
Vitamin B12.....30mcg	Essential Amino Acids, etc.	

Efficacy

Fulfill daily B-complex requirement. Improve growth, production, fertility, laying performance and provide strength to bones and muscles. Prevents lameness, dermatitis and anemia in the birds.

Dosage

poultry, swine: 10-30ml per 1 litre drinking water for 3-5 days. calves, cattle: 30-70ml for 3-5 days.

goats and sheep: 7-10ml for 3-5 days.

Package

500ml, 1L

MINERAL PECK BLOCK

Composition

Vitamins, amino acids, minerals, xylanase, cellulase, etc.

Efficacy

Quickly supply the trace elements, vitamins, amino acids, minerals for poultry, promote the growth, and has the effect of red crown, beautiful feathers and enhancing vitality.

Attract poultry to peck brick attraction, prevent pecking, pecking anus, pecking tail occur, prevent fighting each other.

Dosage

1 block for 1,000 chickens.

Package

1 kg/block

VE+SE LIQUID SUPPLEMENT

Composition(per 1ml)

Vitamin E100mg
Selenium.....100mg

Efficacy

Eliminate slow growth and lack of fertility.

Prevent and treat muscular dystrophy (White Muscle Disease, Stiff Lamb Disease) in cattle, sheep, goats, pigs and poultry

Dosage

500~1500 ml per 1L of drinking water, or as a single oral drench.

Package

500ml, 1L, 5L

VITAMIN AD3E ORAL

Composition(per 1mL)

VA.....200MIU
VD3.....10MIU
VE.....4mg

Efficacy

Increase of fertilization rate, hatching rate of breeder. Increase resisting power against disease. Strengthening vitality of Chick. Prevent stress.

Dosage

Chick: 5ml pre 100 birds;

Grower, finisher: 7.5ml per 100 birds;

Layer, breeder: 12.5ml per 100 birds.

Administer the above dose diluted in drinking water.

Package

500ml, 1L

MINERAMINOVIT LIQUID

Composition (per 1mL)

Vitamin A.....12,000IU	Vitamin D3.....3,000IU	Vitamin E.....10mg
Vitamin K.....1mg	Vitamin B1.....2mg	Vitamin B2.....1.5mg
Vitamin B6.....1.5mg	Vitamin B12.....0.01mcg	Vitamin H.....0.01mcg
Choline Chloride.....8mg	Inositol.....5.2mg	Essential Amino Acids.....563.5mg
Magnesium.....1mg	Cobalt.....0.02mg	Copper.....0.1mg
Zinc.....0.1mg	Manganese.....0.1mg	

Efficacy

Necessary for nutrition and normal growth.

The best product to get important results in weight increasing, quality and quantity of eggs especially in breeders eggs and in activation of biological functions in bird.

For livestock like cows, camels, horses, sheep and goats, this product has more important functions in general activity, weight gain, milk increasing as quantity and quality. This product is active in bacterial and viruses resistance increasing.

Dosage

1ml per 5L drinking water for up to 10 days.

For layers: 2ml per 5L drinking water for up to 10 days.

Package

1L , can be customized

LIVER TONIC

Composition(per 1ml)

Sorbitol.....400mg
Carnitine.....100mg
Betain.....30mg
Silymarin.....20mg
Inositol.....10mg
Vitamin PP.....2mg
Methonine Acetyl.....25mg
Chholine Chloride.....60mg
Magnesium Sulphate.....50mg
Plant Extract (Boldo,Artichoke).....10mg

Efficacy

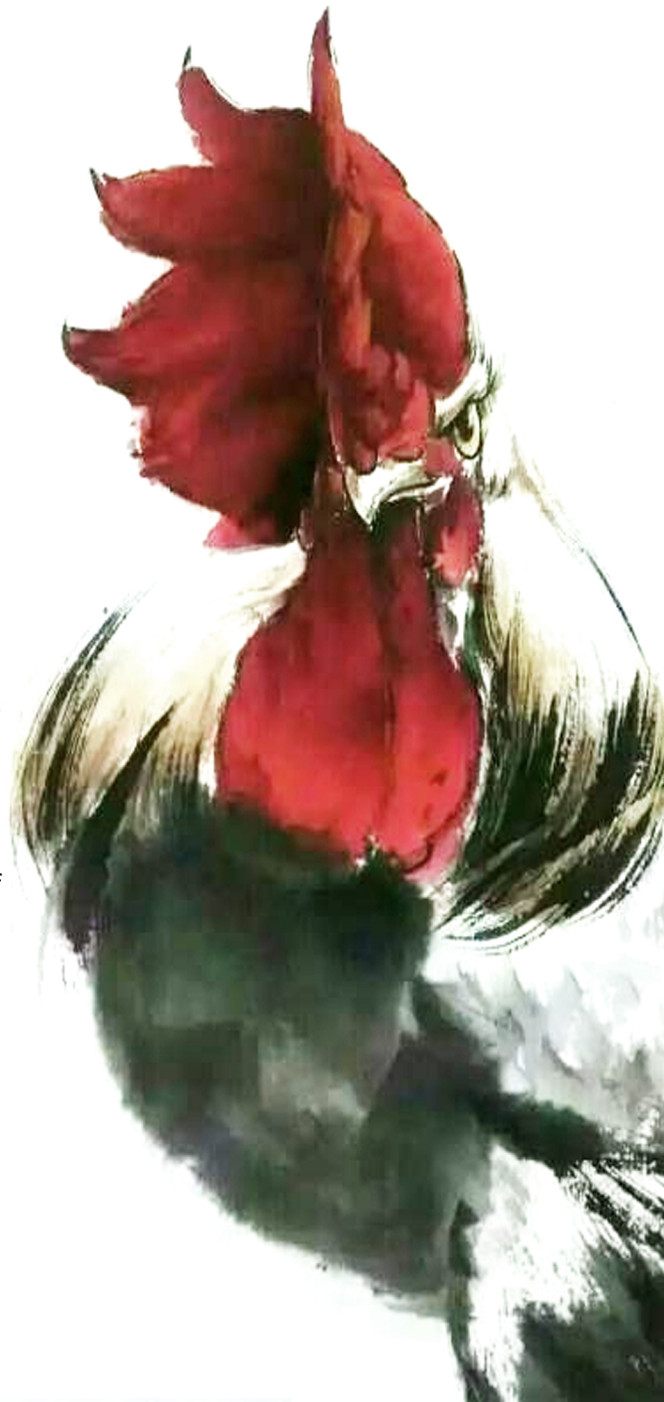

Stimulate liver metabolism, Increase bile production and pancreatic enzymes. Regenerate the liver cells, prevent fat accumulation in liver, and metabolize cholesterol in arteries and liver.

Dosage

For broiler, breeders, broiler, 1ml per 4 liters of drinking water

Package

500ml, 1L

MULTI-BROMINT

Composition (per 1mL)

Menthol.....	44mg
Bromhexine HCl.....	20mg
Thymol.....	10mg
Eucalyptus oil.....	10mg
Camphor.....	10mg

Efficacy

It is indicated for the prevention and treatment of respiratory tract infection.
E.g. Bronchitis, emphysema, silicosis, chronic lung inflammation and cough with sputum caused by bronchiectasia., etc.

Dosage

1ml per 4 liters of drinking water. Continuous for 3-5 days.

Package

500ml, 1L

RESPIMINTO ORAL

Composition(per 1ml)

Eucalyptus oil	140mg
Peppermint oil	60mg
L-menthol.....	45mg
Thyme oil.....	40mg

Efficacy

Indicated for strengthening the respiratory system. It is restores natural activity of the respiratory epithelium and helps to remove the mucous from the bronchial tubes.

Dosage

Poultry: 1ml per 15-20 liters of drinking water for 3-4 days.

Package

500ml, 1L

DRUGS | ANTIBIOTIC

TYLO-DOXY

Composition(per 1kg)

Tylosin Tartrate.....200 g
Doxycycline hyclate.....250 g

Efficacy

Treat Pleuropneumonia, Colibacillosis, Strepto-coccosis, Mycoplasmas, CRD, CCRD, ILT, IT caused by Mycoplasma, Hemophilus, Streptococcus, Staphylococcus.

Dosage

Poultry: 1g per 2 L of drinking water.
Swine, sheep, goats and horse: 1g per 40kg of body weight.
Cattle: 1g per 60kg of body weight.

Package

100g, 500g, 1kg, 5kg, 10kg

LINCOSPECTIN 100

Composition(per 1kg)

Lincomycin HCl.....222 g base
Spectinomycin HCl.....444 g base

Efficacy

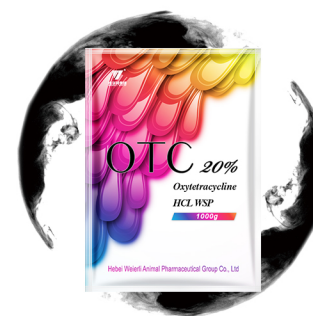

Poultry: prevention and treatment of chronic airsacculitis.
Pigs: treatment of pig dysentery.

Dosage

0.5~0.8g/liter of drinking water.

Package

100g, 200g, 500g, 1kg, 5kg

OTC 20

Composition(per 1kg)

Oxytetracycline hydrochloride.....200g

Efficacy

For the prevention and treatment of coliform septicaemia, omphalitis, synovitis, fowl cholera, pullet disease, C.R.D. and other diseases including bacterial infections following infectious bronchitis, Newcastle disease or Coccidiosis. Also useful following vaccination and at other times of stress.

Dosage

100 g per 150 litres of drinking water.
Continue treatment for 5- 7 days.

Package

100g, 500g, 1kg

SUL-TMP 48

Composition (per 1L)

Sulfadiazine Sodium400g
Trimethoprim 80g

Efficacy

Gastrointestinal and respiratory infections caused by trimethoprim and sulfadiazine sensitive micro-organisms like E. coli, Haemophilus, Pasteurella, Salmonella, Staphylococcus and Streptococcus spp.

Dosage

Calves, goats and sheep: Twice daily 5ml per 100 kg body weight for 4 - 7 days.
Poultry and swine: 1L per 1500 - 2500 litres of drinking water for 4 - 7 days.

Package

500ml, 1L

SPRI POLVO

Composition(per 1g)

Spiramycin (from adipate).....4,300,000IU

Efficacy

CRD (chicken) and infectious sinusitis (turkey).

Dosage

Growing Poultry diseases: 0,600 g/L.

Turkeys: Medicate birds of 1 day during 5 days. Broilers: Medicate birds of 1 day during 3 days and medicate once at 4 weeks.

Replacement Chickens: Medicate birds of 1 day during 3 days. Medicate once at 9 weeks and again at 16 weeks.

In case of outbreaks of CRD, sinusitis: Turkeys: medicated water 3 days; Chicken: medicated water 3 days and after vaccination 1 – 2 days.

Package

100g, 500g, 1kg

ENRO B

Composition(per 1mL)

Enrofloxacin..... 200mg

Bromhexine Hcl..... 15mg

Efficacy

Prevention and treatment of CRD, CCRD, Infectious Coryza Colibacillosis Pullorum & Fowl Typhoid. Staphylococcal infection, secondary bacterial infections of viral outbreaks.

Dosage

Orally through drinking water:

Prophylactic use: 1 ml/ 8 L, 3days;

Therapeutic use: 1 ml/ 2-4L.

For 3-5 days.

Package

100 ml, 250 ml, 500 ml, 1000ml

TIMI 25

Composition(per 1mL)

Tilmicosin.....250mg

Efficacy

Control and treatment of respiratory infections associated with tilmicosin-susceptible micro-organisms such as Mycoplasma spp. Pasteurella multocida, Actinobacillus pleuropneumoniae, Actinomyces pyogenes and Mannheimia haemolytica in calves, chickens, turkeys and swine.

Dosage

Poultry:

300ml/1000 litres of drinking water for 3 days.

Calves:

Twice daily, 1ml/20kg B.W. via (artificial) milk for 3 - 5 days.

Swine:

800ml/1000 litres of drinking water for 5 days.

Package

100mL, 500mL, 1L, 5L

ENRO-COLI 100

Composition(per 1kg)

Enrofloxacin.....100g

Colistin sulphate.....35g

Efficacy

Prevention and treatment of respiratory problems such as CRD, CCRD, colibacillosis, fowl cholera and coryza, and gastroenteritis, Salmonellosis and E. coli infections.

Dosage

Treatment: 1g/2liters of drinking water or 1g/1kg of feed, for 5 ~7 days.

Prevention: 1g/4liters of drinking water or 1g/2kg of feed, for 3~ 5 days.

Package

100g, 500g, 1Kg.

TOLTRAZURIL 1.0/2.5/5.0 LIQUID

Composition(per 1mL)

Toltrazuril.....10mg/25mg/50mg

Efficacy

Anti coccidiosis of all stages like schizogony and gametogony stages of Eimeria spp. in chickens and turkeys.

Dosage

25ppm for continuous medication over 48 hours, or 75 ppm given for 8 hours per day, on 2 consecutive days.

Package

100ml, 500ml, 1000 ml

FENBENDAZOLE PREMIX

Composition(per 1mL)

Fenbendazole 40 mg

Efficacy

For the treatment of gastrointestinal and pulmonary nematodes in the adult and immature stages.

Dosage

Administer with the feed or on top of the feed.

Package

100g, 200g, 500g, 1kg, 5kg

DICLAZURIL 1.0/2.5/5.0 LIQUID

Composition(per 1mL)

Diclazuril 10g/25g/50g

Efficacy

Treatment of chicken Eimeria tenella, E.acervulina, E.necatrix, E.brunetti, E.maxima. Effectively control the emergence of the caecum coccidiosis.

Dosage

Mixing with drinking water:

For chicken: 0.51mg(indicates the quantity of diclazuril) per litre water.

Package

100ml, 500ml, 1000 ml

SALINOMYCIN 12

Composition(per 1kg)

Salinomycin.....120g

Efficacy

Broad anticoccidial coverage against the six major Eimeria species, including E. acervulina, E. tenella, E. maxima, E. brunetti, E. necatrix, E. mitis in broiler chickens. Coccidia are destroyed rather than inhibited.

Dosage

Mix with feed

each 1000kg feed adding:

chicken 50-70g; cattle: 10-30g. Above all in active ingredients

Package

100g, 200g, 500g, 1kg, 5kg

SHUANGHUANGLIAN ORAL SOLUTION

Composition

Lonicera japonica, radix scutellariae, fructus forsythiae

Efficacy

Treatment for bird flue and various viral disease of poultry, poultry egg syndrome, influenza, duck spleen necrosis, duck pestilence, etc.,

Dosage

For treatment: 1L per 2000L drinking water.

For prevent: 1L per 8000L drinking water.

Package

500ml, 1L

VIC-ANTIVIRAL SOLUTION

Composition

Astragalus polysaccharide(APS), Recombinant chicken Interleukin-2 (IL-2)

Efficacy

1. Enhance the immune effect of the vaccine.
2. Improve the body's anti-virus ability.
3. Reduce the occurrence of stress and accelerate disease recovery.

Dosage

Mixed with drinking water: Each bottle is used for 10,000 chicks, 8,000 mid-age chickens, and 5,000 adult chickens.

Package

250ml

DISINFECTANT

PHOTOCATALYSIS NANO-SIO₂ POWDER

Composition

Nano-photocatalytic materials, HSCAS, organic acids.

Efficacy

Disinfectant. Used to kill gram-negative and gram-positive bacteria, fungi, viruses and parasitic ovum, absorb of moisture and harmful gases such as ammonia, hydrogen sulfate, etc.

Improve environment, block the routes of bacteria, reduce stress response and prevent respiratory diseases. It can also be used for wound disinfection and cleaning the body of new-born animals.

Dosage

Spray the product in the animal house evenly after turn off all of the ventilation system.

For daily preventive use, 5 g/m³, once a week

Package

1kg, 5kg

POVIDONE-IODINE SOLUTION

Composition

Povidone Iodine 10%

Efficacy

Disinfectant for livestock and poultry house disinfection, disinfection of surgical instruments and disinfection of skin and mucous membranes.

Dosage

Regular disinfectant for environment 1:1000, spray

Epidemic situation 1:500, spray

Fish ponds 500ml/666 m²

Breeder eggs 1:1000, Soak

Pet cleaning: 1:500, medicated bath

Package

1L, 5L

BZK-PHMB SOLUTION

Composition

Glutaraldehyde 10%

Benzalkonium bromide 10%

Efficacy

Broad spectrum disinfectant and effective for both gram positive and G-negative bacteria and majority of viruses, spores, algae and fungi., etc.

Dosage

Diluted in water.

Livestock farm houses: 4ml/ Liter;

Foot dip/Harcher/Incubator/Egg nests/Floors: 40ml/ Liter;

Farm vehicles: 10ml/ Liter

Plastic equipments: 20ml/ Liter

Metal equipments: 10ml/ Liter

Drinking water: 0.1ml/ Liter

Package

1L, 5L

POTASSIUM MONOPERSULFATE

Composition

Potassium Monopersulphate Compound 50%

Efficacy

Effective against bacteria, fungi, moulds and all virus families, effecting on poultry, livestock, fisheries, equine and human healthcare facilities.

Biodegradable. Effective against biofilms.

Dosage

Air and Surface Disinfection: 2.5g/Litre

Routine Water Sanitation: 1g/ 5 Litre

During Disease Outbreak: 1g/Litre

Aquaculture farming, water disinfectant: 0.3-0.5g/Litre

Package

5kg/drum
